If you are like me, you may live in a part of the country that just doesn't have a great selection of radio stations, let alone have anything you want to listen to. For less than \$13 a month, you can have access to over 125 channels, which are completely commercial free. Whatever you like, Sirius Satellite Radio has it. For a nominal price you can purchase a Sirius Satellite Radio system for your vehicle or your home, or you can buy an extra docking station and use one transmitter and switch them between the two. Sirius Satellite Radio systems can be purchased at many electronic retail stores, including Best Buy and Circuit city. Also from time to time, [www.sirius.com](http://www.sirius.com) offers systems at a reduced price, or rebates are offered that you can print out and take to your nearest Sirius retailer. There are also different models available, so just ask an informed sales associate for help in deciding which Sirius Satellite Radio system is right for you.

There are various categories you can choose from also, like News/Talk, Entertainment, Sports, Pop, Rock, Classical, Electronic/Dance, Hip-Hop/R&B, Country, Jazz/Blues, Standards, and Latin/International. Aside from listening via your Sirius Satellite Radio transmitter, you can use your PC and personal login information to listen online, which is great for when you're at work or anywhere else that you don't have your transmitter available. You can set up your system to hold up to twenty of your favorite stations for your convenience also, making your Sirius Satellite Radio system that much more enjoyable! If there is a certain sports event or scheduled program you would like to be reminded of, you can set an alert that will let you know when your favorites are on, so you won't miss a second!

You will so enjoy your Sirius Satellite Radio system that you will never want to listen to traditional radio again! I don't know how I ever lived so long without it! It is so much a part of my daily routine that I just have to have it on all the time. If you are a Howard Stern fan, he is now on the Sirius Satellite Radio network and is available to listeners worldwide. Satellite radio is it, there is nothing better, and Sirius Satellite Radio has everything you will ever want or need, all for a great low price. All those great channels at your fingertips to enjoy in the privacy of your home or vehicle. If you don't have it, get it-you'll love it!
